

MK4 mosquito with
multi-age function

mosquito

ANTI-VANDAL SYSTEM

a simple, safe, benign
method of preventing
vandalism and group
anti-social behaviour

The new MK4 Mosquito with Multi-Age function.

features

- Increased maximum range to 40 meters (130 feet) for specific applications
- 2 frequency settings, one for kids and one that will annoy people of any age.
- 4 step volume selection
- Audible beep on/off
- 20 minute auto cut-off
- Additional chipset for continuous running available for specific applications
- Inbuilt PIR activation timer control

Use of this device poses NO health issues to the public as confirmed by:

- Belgian Superior Health Council
- Health Canada
- NHS
- ISVR
- Royal College of Paediatrics & Child Health

what it is

The new Mosquito MK4 Multi-age now has two functions. Either set the device to 17KHz to disperse groups of troublesome teenagers OR set it to 8 KHz to disperse people of ANY AGE from areas where loitering can be an issue such as subway tunnels, car parks or any areas where people feel insecure at night due to other people loitering in the shadows etc.

- High tone is generally not noticed by people "passing by"
- Both tones usually take effect within 10-15 minutes
- Can be activated by timer, remote control or PIR
- 20 minute Auto cut-off (on standard configurations)

what it is not

- It is not a weapon
- It is not violent
- It does not hurt

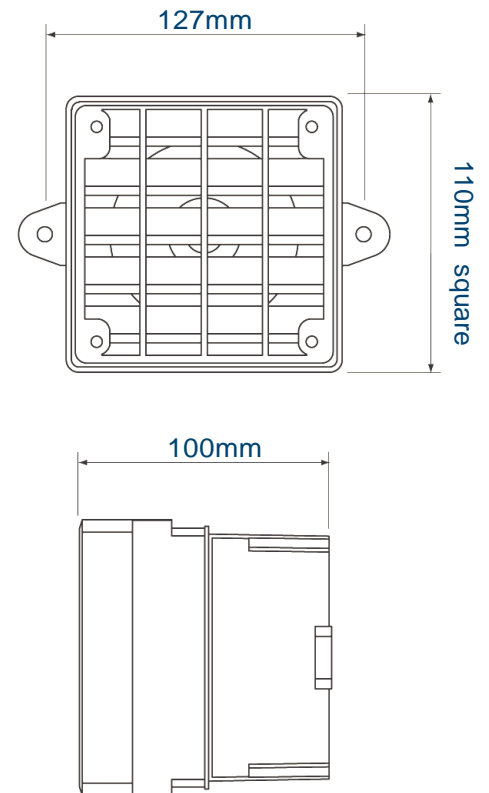

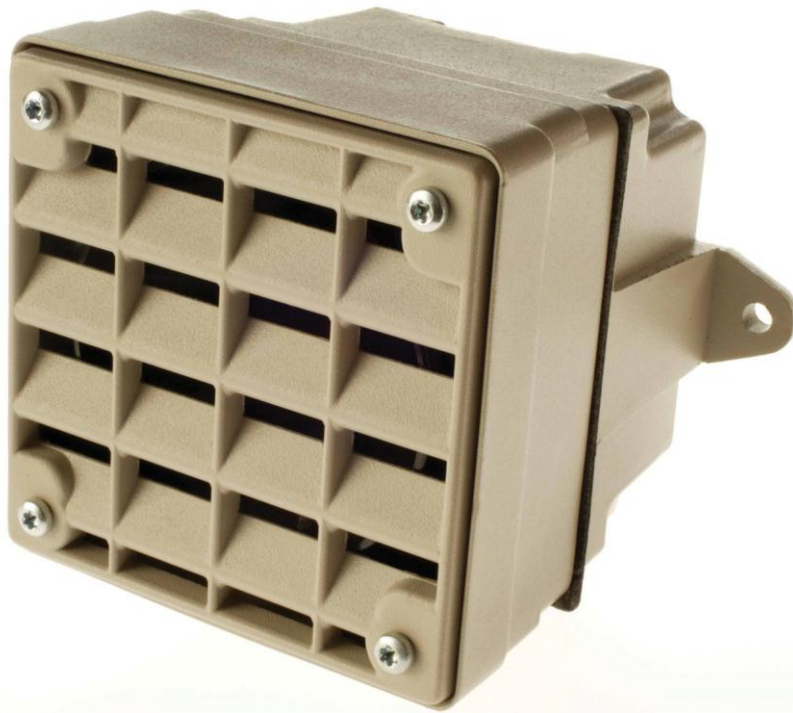

where it can be used

- Outside community convenience stores where kids gather and cause problems
- Industrial estates during evening hours and weekends when businesses are vulnerable to vandalism etc
- Car Parks
- Subways
- Railway stations
- Railway trouble spots where children play
- School premises during evening hours, weekends and holidays
- Parks during hours of darkness to prevent groups of kids drinking, using drugs and vandalising equipment
- Any other location where kids/adults congregate and cause damage

why use it

- Reduce vandalism
- Reduce theft from and damage to property
- Increase the quality of life of those affected by anti social behaviour
